

ART-LBL-05 Carton marking set

PKG-EEG-015 Rev B
generated by tools/artwork_gen.py
2026-09-02 CC BY-SA 4.0

Size	200 x 150 mm as drawn; section 4.2 gives no size because it is printed on the carton rather than applied as a label
Substrate	The carton itself
Placement	Two opposing long faces

FRAGILE - RESEARCH INSTRUMENT

KIT ID	<<KIT_ID>>
UNIT SERIAL	<<UNIT_SERIAL>>
GROSS MASS	<<GROSS_SHIPPING_MASS_KG>> kg
DESPATCH DATE	<<DESPATCH_DATE>>

Do not use this carton if it is crushed or wet. Telephone +32 493 70 16 01.
Printed on two opposing long faces (PKG-EEG-015 section 4.2).

trim 200 x 150 mm, shown 1:1

Variable data -- these fields are NOT artwork and must be supplied before print

<<KIT_ID>>	PKG-EEG-015 section 5.
<<UNIT_SERIAL>>	PKG-EEG-015 section 5.
<<GROSS_SHIPPING_MASS_KG>>	Weighed at despatch. PKG-EEG-015 section 6 calculates 8.7 kg; section 9 open item 4 records that nothing has been weighed, so the printed figure is the scale reading and not that calculation.
<<DESPATCH_DATE>> +32 493 70 16 01	The despatch record, PKG-EEG-015 section 8. SUPPLIED 2026-09-02. Substituted.

Notes

- The THIS WAY UP arrows are drawn as geometry, not set from a font, so they survive a printer with no symbol font.
- Section 4.2 lists four things this marking carries: FRAGILE -- RESEARCH INSTRUMENT, THIS WAY UP, gross mass and kit id. The unit serial and the despatch date are added here because the despatch record of section 8 is held against both, and a carton that carries only the kit id cannot be reconciled to a unit at goods-in. That addition is this file's and is raised in section 9.
